SUMMARY

Full Stack Web Developer with experience delivering production systems for clients in Lebanon, Saudi Arabia, and UAE. Strong in Laravel, React, REST APIs, and MySQL. Team Lead experience managing developers and shipping business-critical applications.

TECHNICAL SKILLS

PHP, JavaScript, TypeScript, Laravel, Express.js, React.js, Angular, HTML, CSS, Bootstrap, Tailwind, MySQL, MongoDB, Supabase, Git, Docker, Postman.

EXPERIENCE

Full-Stack Developer (Co-Founder) — IMAA
Lebanon | 2023 – Present

- Developed and deployed custom POS systems for multiple clients and sold an Invoice Management System to a UAE SNS company, supporting real sales and financial operations.
- Built and maintained company websites including swisslifelb.com using PHP, Laravel, and MySQL.
- Designed relational databases and implemented authentication and role-based access control.
- Developed REST APIs and integrated front-end interfaces.
- Managed hosting, deployment, maintenance, and client technical support.
- Gathered requirements and translated business workflows into software solutions.

Full Stack Developer / Team Lead
AFKAR ALBARMAJAH FOR IT — Saudi Arabia (Remote) | Jan 2025 – Present

- Lead developers delivering full-stack web systems for Saudi clients, including atcc-ksa.com for AFKAR AL-TATWEER.
- Design, develop, and maintain scalable applications using Laravel, React, and MySQL.
- Manage project planning, task distribution, code reviews, and production deployments.
- Administer and maintain enterprise systems including SQL databases (backup, restore, integrity monitoring).
- Manage internal platforms, archive systems, intranet services, and Active Directory environments.
- Provide technical support and user training across operational departments.
- Document technical workflows and coordinate cross-team IT operations.

Software Technician
CLICKONCE — Lebanon | Oct 2024 – Jan 2026

- Software troubleshooting, maintenance, and client IT support.

Web Development Intern | World of Business — Lebanon | May 2024 – Jul 2024

- React frontend and Laravel backend development (Genix project).
