SUMMARY

Full Stack Web Developer delivering production systems across Lebanon, Saudi Arabia, and UAE. Proficient in Laravel, React, REST APIs, and MySQL. Experienced team lead managing developers and shipping business-critical applications.

PROFESSIONAL EXPERIENCE

Full-Stack Developer / Co-Founder - IMAA | Lebanon | 2023 – Present

- Developed and deployed custom **POS** and **Invoice Management** systems for clients across Lebanon, including a live system for a UAE SNS company.
- Built and maintained company websites, including swisslifelb.com, using **Laravel**, **PHP**, and **MySQL**.
- Designed relational databases, implemented authentication, and role-based access control.
- Managed hosting, deployments, and client technical support.

Full Stack Developer / Team Lead - AFKAR ALBARMAJAH FOR IT - Saudi Arabia (Remote) | Jan 2025 – Present

- Led developers building **full-stack systems**, including atcc-ksa.com for AFKAR AL-TATWEER.
- Designed, developed, and maintained scalable applications with **Laravel**, **React**, and **MySQL**.
- Managed project planning, code reviews, task distribution, and production deployments.
- Administered enterprise systems including **SQL databases**, internal platforms, and Active Directory.

Software Technician - CLICKONCE - Lebanon | Oct 2024 – Jan 2026

- Performed software troubleshooting, maintenance, and client IT support.

Web Development Intern - World of Business - Lebanon | May 2024 – Jul 2024

- Developed React frontend and Laravel backend development (Genix project).

PROJECTS

ERP & Accounting System – IMAA

- Designed and implemented full accounting workflows for sales, purchases, and financial reporting.
- Built role-based access control and modular architecture using **Laravel** and **MySQL**.

POS System for Retail Clients – IMAA | GitHub

- Developed a live **POS** system handling sales, products, transactions, and reporting.
- Implemented REST APIs and optimized database performance for live operations.

HubConnect - Role-Based Learning Platform | GitHub

- Built React 18 SPA with Vite, Tailwind, and Socket.io real-time chat.
- Implemented JWT authentication, role-based dashboards, and route guards.
- Developed analytics dashboards, task workflows, and notification system.

TECHNICAL SKILLS

Frontend: React.js, Angular, Vue, Next, HTML, CSS, Bootstrap, Tailwind
Backend: PHP, Laravel, Django, Flask, FastAPI, Node.js, Express.js, Nest, REST APIs
Databases & DevOps: MySQL, MongoDB, Supabase, Docker, Git, Postman
Other: TypeScript, JavaScript, Agile workflows, Role-Based Access Control
Languages: Arabic (Native) | English (Fluent) | Spanish (Beginner).

EDUCATION

B.S. Computer Science - Lebanese International University | Aug 2020 – Feb 2024
