Other: TypeScript, JavaScript, Agile workflows, Role-Based Access Control

---

EXPERIENCE

Full-Stack Developer / Co-Founder - IMAA | Lebanon | 2023 – Present

- Developed and deployed custom **POS** and **Invoice Management** systems for clients across Lebanon, including a live system for a UAE SNS company.
- Built and maintained company websites, including swisslifelb.com, using **Laravel**, **PHP**, and **MySQL**.
- Designed relational databases, implemented authentication, and role-based access control.
- Managed hosting, deployments, and client technical support.

Full Stack Developer / Team Lead
AFKAR ALBARMAJAH FOR IT - Saudi Arabia (Remote) | Jan 2025 – Present

- Led developers building **full-stack systems**, including atcc-ksa.com for AFKAR AL-TATWEER.
- Designed, developed, and maintained scalable applications with **Laravel**, **React**, and **MySQL**.
- Managed project planning, code reviews, task distribution, and production deployments.
- Administered enterprise systems including **SQL databases**, internal platforms, and Active Directory.

Software Technician
CLICKONCE - Lebanon | Oct 2024 – Jan 2026

- Performed software troubleshooting, maintenance, and client IT support.

Web Development Intern
World of Business - Lebanon | May 2024 – Jul 2024

- Developed React frontend and Laravel backend development (Genix project).

PROJECTS

ERP & Accounting System – IMAA

- Designed and implemented full accounting workflows for sales, purchases, and financial reporting.
- Built role-based access control and modular architecture using **Laravel** and **MySQL**.

POS System for Retail Clients – IMAA

- Developed a live **POS** system handling sales, products, transactions, and reporting.
- Implemented REST APIs and optimized database performance for live operations.

HubConnect — Role-Based Learning Platform

- Collaborated in agile teams simulating real company workflows.
- Built a **React 18 SPA with Vite and Tailwind CSS**, featuring real-time chat via **Socket.io** and role-isolated dashboards for Admins, Instructors, and Students.
- Implemented **JWT**-based authentication, route guards, and dynamic dashboards using React Context and custom **hooks**.
- Developed modules for task creation, submission tracking, attendance management, analytics dashboards (Recharts), and notifications.

- Designed responsive layouts with **mobile-friendly** sidebars and dark mode support.

EDUCATION

B.S. Computer Science - Lebanese International University 2024

Software Engineering Program - The Digital Hub 2025

- Intensive full-stack training focused on the MERN stack.
- Built multiple team-based projects simulating real software company workflows.
- Worked in agile teams delivering production-style applications using React, Node.js, MongoDB, and Supabase.
